I would love to attend this Conference to voice my opinions and thoughts of my members in my building so that their concerns are heard which would empower others to join.

It has been an absolute honor to serve as a delegate. Being an intricate part of the process and carrying out the goals of the association for the betterment of my colleagues is very important and I wish to continue to this mission.

This is James Henderson asking again for your votes. In electing me to serve as a delegate to the NEA 2019 RA, you will also be allowing me to represent Maryland on the NEA Resolutions Committee. I appreciate the confidence our members have in knowing I honor my delegate responsibilities.

As a member of the TABCO union I am an advocate for students and educators. I have attended the 2017 and 2018 NEA R.A. and MSEA Conventions. These events allow us to unite our voices and have a greater impact for the students and educators. We need to speak up, speak out, and be heard!

I'm very involved and love being a part of an organization where I know my opinion matters. I have 3 school age children who attend schools in Baltimore County so I'm always fighting so that they can have the best opportunities when it comes to education.

As a fifth-year Para-Educator in BCPS, I have always had the ambition to work with children. Most recently, I was selected to go as a first-year delegate to the RA in Ocean City, Md with ESPBC. I enjoyed having the opportunity to advocate for the students and educators. Everyone deserves a better future!
