Personal Growth and Empowerment

Convention workshops are free and open to members of MSEA. Register for workshops at marylandeducators.org/convention. You'll receive an email and link with information on how to attend.

This year, MSEA offers workshops and trainings on best practices and skillful pedagogy that address today's education issues, including implicit bias and other cultural competencies, trauma-informed education, and instructional strategies you can use right away.

Building an Instructional Toolkit

Workshops focus on the resources and techniques educators need to engage students and improve academic achievement using technological, tactile, and rigorous strategies. Get inspired with content that addresses the challenges you face in your classroom every day.

Self-Care and Trauma Aware Classrooms

These are stressful times. Our students need trauma-informed educators now more than ever—learn how you can bring this gift to your classrooms. We can best help our students when we are strong—learn more on supporting students during this difficult time.

Racial and Social Justice in Our Schools

These workshops focus on cultivating a culture of equity, safety, and social-emotional learning in the classroom and other education settings. Increase your awareness of the impact of poverty, trauma, and biases on your students and learn strategies to support them in their developmental and academic journey.

School Counselor

Open to ALL educators, workshops in this strand are designed and delivered by school counselors to facilitate relationships, address inequities, and build understanding of our most vulnerable students.

Digital Learning

We are all living, teaching, and learning in a new environment. Build skills and confidence for online instruction for both you and your students.

Personal Growth and Empowerment

These workshops encourage personal and professional learning, reflection, and advocacy to make you a stronger, more confident educator. Expect strategies, resources, and expert advice at each session.

For credit, consult with your local certification/staff development/human relations department. To receive a MSEA Certificate of Attendance, participants must attend the workshop they officially registered for, log into Zoom within the first five minutes of the presentation, and stay for its entirety.
